

CARLING ANIMAL HOSPITAL

Family health care is very important for most Canadians. For many, this includes the wellness of their beloved pets. In the Ottawa area, a trusted source for veterinary care is Carling Animal Hospital. Since its foundation almost 25 years ago, Carling Animal Hospital has undergone several major expansions and now offers a state of the art, 7,500 square foot facility that delivers veterinary services to clients from all across Eastern Ontario. Doctors and staff are understandably proud of the facilities and will happily take you for a personalized tour. The hospital has been carefully designed to offer the best experience possible, including a spacious reception area to give pets ample space while waiting to see their Doctor. Services provided by this independently-owned veterinary facility include everything that one might expect for the care of cats and dogs: examinations, vaccinations, digital x-rays, ultrasound examinations, dentistry and laser surgery. Carling Animal Hospital also proudly treats exotic pets of all kinds, including reptiles, rabbits, ferrets and other small mammals. For those interested in complementary medicine, acupuncture and Traditional Chinese Herbal Medicine are also available. Grooming and boarding are also offered at Carling Animal Hospital, with each pet's needs attended to by top notch groomers and veterinary assistants. Access to professional and compassionate care is top of mind for most pet owners. Preventative health care affords the most successful way of ensuring the longevity and quality of life for a pet. "We favour a collaborative approach," explains co-owner Dr. Saye Clement. "Working together with a pet's owner, we assess each pet's lifestyle and needs for health care and design an

Dr. Saye Clement and Dr. Keith Johnson

appropriate preventative care program for that individual."

Co-owner Dr. Keith Johnson goes on to explain, "We are always mindful of the costs of pet ownership. As a result, we only recommend a test or medical procedure if it is of genuine necessity and value to a pet. Every one of our team members is a pet owner themselves and we take great pride in

the bonds we establish with families as we treat and care for their pets over the years. We value the loyalty of our clients." Supporters of numerous pet-related and non-pet related charities, all of the staff of Carling Animal Hospital are proud members of the community. As Dr. Johnson confirms, "We love our work and we appreciate the trust that is placed in us every day." 🐾
